PARPRO
Partners in Production

RAPID & COST EFFECTIVE SOLUTIONS
TAILORED TO SUIT YOUR REQUIREMENTS

THE EXPERTISE OF **ALL** OR **ONE**

≫ Early Stage Product Design & Engineering

- Product Development & Engineering (NPI)
- System Design
- Thermal Modeling
- Boards, Modules & Enclosures
- Circuit & Routing
- BIOS, OS and Drivers Support, Firmware Customization

- Design for Manufacturability (DFMA)
- Test Development and Design for Test
- Component Risk Mitigation & Obsolescence
- Value Analysis / Value Engineering
- Program Management / Product Life Cycle

≫ Contract Manufacturing Services (EMS)

- Full Turn-Key and Labor Only Manufacturing
- Subsystem Assembly & Integration
- Printed Circuit Board Assembly (PCBA)
- Lean Manufacturing Principles
- Cable & Wire Harness Assembly
- Sheet Metal & Precision Machining

- Powder Coating & Lamination
- Testing & Screening, Failure Analysis
- Local / Regional / Asian Supply Chain Management
- Low to High Production – Volume Scalability

≫ Aftermarket Solutions & End of Life Support (EOL)

- Warranty, Repair & Logistics Support
- Direct Fulfillment
- End-of-Life Material Management

PARPRO
Partners in Production

GAMING & INFOTAINMENT
INNOVATIVE PLATFORMS & SYSTEMS

GAMING & INFOTAINMENT

PARPRO for Gaming & Infotainment is a full service design and manufacturing company with an emphasis on ODM solutions, dedicated to providing advanced gaming and self-service solutions for a variety of gaming and infotainment customers.

PARPRO offers a full suite of services from concept to design to production. We specialize in state-of-the-art sheet metal design and fabrication, along with engineering expertise that encompasses complex PCB design, mechanical engineering, cable & harness assembly, box build, integration and more – providing an end to end turnkey solution for companies seeking full product development and manufacturing services from a single source. We have a proven track record of producing the most complicated gaming cabinets and self-serve kiosks on the market today with a high regard to quality and cost optimization. In short, PARPRO is committed to the success of its customers, and pride ourselves on our vast gaming and infotainment knowledge. This brings more insight to our customers and makes us an integral part of their solutions success.

SOLUTIONS TAILORED TO MEET YOUR NEEDS

Engage with us at any stage of your program, anywhere from system design to manufacturing services or a complete ODM Solution

GAMING BOARDS/ EMBEDDED SOLUTIONS
- Design & Manufacture
- Full Custom Designs
- PCB Manufacturing, Assembly and Testing
- R&D Engineers

GAMING MACHINE HARNESSES
- Cable & Harness Assembly

BOX BUILD ASSEMBLY & CABINET INTEGRATION

PLATFORM CUSTOMIZATION SERVICES
- Hardware Design Services
- System Design Services
- Firmware/BIOS

GAMING SYSTEMS
- Controller
- Player Tracking
- Gaming Box PC
- Customized Gaming Box

METAL FABRICATION
- Gaming Cabinets
- Signage Cabinets
- Self-Serve Kiosks
- Cabinet Sheet Metal and Machining

PERIPHERALS & OTHER PRODUCTS
- Storage devices
- Enclosures
- Backplanes & Connector Boards
- Carrier Boards

≫ APPLICATIONS
- Casino/Slot Machines
- Player Tracking & Accounting Systems
- AWP, SWP, VLT, FOBT Machines
- Multiplayer Games
- Arcade, Touch, Video and Table Gaming
- Signage Cabinets
- Self-Service Kiosks

≫ ODM BENEFITS – WORKING WITH PARPRO

As an ODM partner, PARPRO provides ODM/OEM services that cover the complete spectrum of the product lifecycle from concept to design through manufacturing and after-market services.

- One Company / Reduced Margin Stack
- Short Time to Market
- Simplified Development
- Scalable Performance
- Full Custom Designs
- In-House Design & Manufacturing

≫ WHY CHOOSE PARPRO?

GLOBAL ORGANIZATION
In business since 1991 with over 700 employees worldwide. Publicly listed on the Taiwan Stock Exchange since 2014 (4916:TT).

INDUSTRIES
Aerospace & Defense | Datacenter | Gaming | Industrial | Medical | Telecom | Transportation | Embedded Solutions & Platforms

ODM SOLUTIONS
One company through design, development and production, providing a faster more flexible, high quality solution resulting in cost optimization and margin stack reduction.

DESIGN & ENGINEERING
Leading-edge purpose-built US based hardware and firmware development for NPI, application specific and standard products.

MANUFACTURING SERVICES
State-of-the-art manufacturing solutions (EMS), specializing in production at all volume levels – either onshore, offshore or nearshore.

GLOBAL SUPPLY CHAIN
Low cost country or regional supply chain with North America based engineering and global integration, production, distribution, and fulfillment.
